DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 1-24 in the reply filed on 7/28/06 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,5,12,13,15,18,19, are rejected under 35 U.S.C. 102(b) as being anticipated by DE 1176785B (Babcock & Wilcox).

The figure shows a packing chamber housing (16) which is considered to be an integral unit and includes packing material (18,19) which forms a seal between the steam tube (12) and lance (22). The rings are compressed by compression unit (15). The packing chamber housing (16) can be removed as a unit from the steam tube by removing dace plate (10) sliding the tube backwards and pulling off the chamber (16) for refurbishment.

Allowable Subject Matter

Claims 3,4,6-11,14,16,17,20-24, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
